Foreword

Dear readers,

I am proud to present the spring 2025 edition of the *Key Publications of the European Union* catalogue to you.

Our task at the Publications Office of the European Union is to provide publishing and open data management services to all EU institutions, bodies and agencies. The Publications Office is the central point of access to EU law and case-law, publications, open data, research results, procurement notices and other official information.

Our mission is to support EU policymaking and ensure that information and data are accessible and available to public administrations, people and businesses for reuse. This fosters transparency, economic activity, knowledge dissemination and Europe's digital transformation. The Publications Office plays a crucial role in making the actions and significance of the EU known and in harnessing the potential of data. It is a recognised centre of excellence for data, information and knowledge management.

In the context of this mission, this edition of our biannual catalogue presents a curated selection of titles published in the last few months on the EU publications website, where they remain available for you to view, download or order in various formats.

The publications in this spring 2025 selection cover a wide spectrum of political, economic and scientific topics. Consult the latest general report on the EU's activities in 2024. Check out some of the EU's policy options as it navigates today's evolving global economic landscape. Or read about the EU's actions to advance healthy nutrition around the globe.

I hope that you will enjoy browsing through this catalogue and that you will find many titles tailored to your specific interests.

Hilde Hardeman
Director-General
of the Publications Office of the European Union

Introduction

Key Publications of the European Union is a catalogue listing some of the most recent and most popular titles published by the Publications Office of the European Union, the official publisher of the EU institutions and bodies.

All the publications listed in this catalogue are available on the EU publications website (op.europa.eu/publications) and the datasets on data.europa.eu.

The available formats for each publication are indicated by means of the following icons:

PDF

e-book

printed copy available while stocks last

print-on-demand available

web publication

video, e-learning, audio product

web publication with interactive data visualisation

dataset

mobile application

Publications in PDF and e-book formats available on the EU publications website, along with datasets available on data.europa.eu, are always free of charge. Most titles available to order in paper format are also free of charge, except for print-on-demand publications and a small number of titles that are priced. Please note that shipping fees apply to orders for paper publications, even if those publications are free.

Although the information in this catalogue is in English, many titles are available in several languages. The 24 official languages of the European Union are Bulgarian, Croatian, Czech, Danish, Dutch, English, Estonian, Finnish, French, German, Greek, Hungarian, Irish, Italian, Latvian, Lithuanian, Maltese, Polish, Portuguese, Romanian, Slovak, Slovenian, Spanish and Swedish.

To order multiple copies of *Key Publications of the European Union*, contact your nearest EU information centre (europa.eu/european-union/contact/meet-us_en).

Reuse of the content of publications

European Commission documents are reusable, provided the source is acknowledged.

As for the publications of other European Union institutions and bodies, the following rules apply.

— Downloading and reproduction are authorised provided the source is acknowledged.

— Translations of publications into languages other than the language editions published on the EU publications website are subject to the conclusion of a free-of-charge licence agreement.

— Where the content of the EU publications website is incorporated into works that are sold (regardless of their medium), the natural or legal person publishing the works must inform buyers, both before they pay any subscription or fee and each time they access the works, that the information taken from the EU publications website may be obtained, in electronic format, free of charge through the EU publications website.

The use of elements (e.g. text, photos, pictures or graphs) subject to intellectual property rights of third parties is subject to prior authorisation from the copyright owner.

All logos and trademarks are excluded from the abovementioned general permission.

Research and innovation supporting the decarbonisation of the European waterborne sector
An analysis of waterborne transport based on the transport research and innovation monitoring and information system (Trimis) from 2020 to 2024 68

Road Freight Transport Methodology
2025 edition 69

Supporting Sustainable Transport
A toolkit for just transition regions 69

Zero-emission Road Transport 70

Activities of the European Union

20 Years of EU Enlargement

Free movement of workers and social security coordination

Since its founding, the EU has expanded from 6 to 27 Member States. 2024 marked the 20th anniversary of the 2004 enlargement, which added 10 central and eastern European countries to the EU. The accession brought benefits, including free movement and social security coordination, to citizens from both new and existing Member States.

Key Figures on the EU in the World

2025 edition

Key Figures on the EU in the World provides a statistical portrait across three chapters – people and society, the economy and trade, and the environment and natural resources. It complements Eurostat's key publications, offering an introduction to the EU along with international statistics, using data freely available on Eurostat's website and from international organisations.

Available in English

2025 – 88 pages
ISBN: 978-92-68-24003-8

Shock-responsive Social Safety Nets

DG ECHO's engagement in humanitarian crises

The world is facing complex crises, including conflicts, disasters and epidemics, with far-reaching consequences. Humanitarian needs are considerable, requiring innovative approaches. Social safety nets, such as cash assistance, can help vulnerable communities meet basic needs and build resilience. The European Commission's Directorate-General for European Civil Protection and Humanitarian Aid Operations (ECHO) has linked humanitarian response with national social-protection schemes, showing their effectiveness in addressing humanitarian needs, particularly when combined with other types of assistance. This is framed as part of the humanitarian–development–peace nexus approach, with examples and key takeaways compiled in this booklet.

#EU4Algae

Overview of European initiatives for a safe and sustainable algae industry

The European algae industry has high growth potential but needs new policies and knowledge to compete. Initiatives like EU4Algae and organisations like the European Algae Biomass Association are consolidating research and industry needs. This report provides an overview of essential knowledge and measures to support sustainable growth, listing key starting points and resources for a safe and environmentally friendly algae industry in the EU and guiding stakeholders to enhance sustainability and safety.

#EU4Algae

Protocol to apply for a novel food dossier

The EU's food market is regulated to ensure consumer safety, with laws like Regulation (EC) No 258/97 governing novel foods and novel food ingredients. Algal products can be used for many purposes, and increasing their supply can boost the economy and promote the sector, but those products must meet certain safety standards.

Advance report on forest fires in Europe, Middle East and North Africa 2024

This report offers an early comprehensive analysis of the 2024 wildfire season, based on data from the European forest fire information system. Published in early 2025, it complements the near-real-time data from that system and precedes the full analysis due later in the year. It examines the 2024 fire danger situation and its impacts, correlating burnt areas with historical data trends. This summary aids in understanding the evolving patterns and impacts of wildfires across Europe.

Animal Welfare during Transport

Update on the implementation of Council Regulation (EC) No 1/2005

A study on animal transport in the EU found persistent compliance challenges, particularly in relation to journey conditions and vulnerable animals. Enforcement is inconsistent, with shortcomings in inspections and documentation. Clearer regulations and more harmonised procedures are needed to improve animal welfare.

Fishing outside the European Union

The external dimension of the common fisheries policy

The external dimension of the EU's common fisheries policy provides a framework for the activities of EU vessels fishing beyond European waters and is structured around two types of arrangement: multilateral agreements for fishing on the high seas and bilateral agreements with non-EU countries for fishing in areas under their jurisdiction. This analysis reviews the main aspects of the external dimension and its evolution over time.

Mapping of marine protected areas and their associated fishing activities (Mapafish)

Baltic and North Seas, Atlantic EU Western Waters and outermost regions – Final report Annex 5: Case studies

Nine case studies in EU waters (the Baltic Sea, the North Sea, the Atlantic Western Waters and some outermost regions) were selected to analyse fishing activities' response to a marine protected area designation. The studies cover various species and marine protected area protection levels, and use qualitative or quantitative approaches and stakeholder surveys.

Economy • Finance

Budgetary Outlook for the European Union 2025

This study provides an overview of the EU budget, covering its structure, key facts and rules. It serves as a guide for both experienced EU budget stakeholders and newcomers, analysing expenditure challenges, revenue and reform. The study examines the next multiannual financial framework, including with regard to defence, support for Ukraine, debt repayment, the annual budget and rule-of-law conditionality. It offers a comprehensive look at EU finances and budgeting, including the impact of NextGenerationEU grants and the potential for increased EU debt.

Consumer Attitudes towards a Central Bank Digital Currency

This report is based on a survey of European consumers that explores their attitudes towards a digital euro. The results show that a short educational video increases adoption likelihood by 12 percentage points. Consumers would allocate a small fraction of a positive wealth shock to a digital euro, and holding limits have a minimal impact. Some consumers prefer traditional payment methods, resisting the adoption of a digital currency.

Filling the Gap

The geographical allocation of euro-area portfolio investment liabilities and related income

This paper presents a method to estimate euro-area portfolio investment liabilities and income debits by geographical counterpart, addressing challenges in identifying non-resident investors due to secondary market trading and intermediaries. The estimation method uses 'mirror' datasets, temporal disaggregation and econometric techniques to provide robust estimates.

Unpredictable Tariffs by the US

Implications for the euro area and its monetary policy

Tariffs on EU imports by the United States would have a substantial impact on the euro area. They are expected to cause inflation in the United States and contraction in euro-area aggregate demand and output. The European Central Bank should be prepared to adjust monetary policy to maintain price stability amid potential deflationary and inflationary influences.

European Heritage Label 2024 Evaluation

Report – Executive summary

The European Heritage Label evaluation assesses implementation and impact, as mandated by the European Parliament. The evaluation, conducted every six years, examines effectiveness, efficiency, consistency, EU added value and relevance. The results will inform the next phase of action beyond 2025, contributing to the European Commission's understanding of the scheme's implementation and future development, in line with the better regulation guidelines.

Key data on early childhood education and care in Europe

2025

The third edition of the European Education and Culture Executive Agency's *Key data on early childhood education and care in Europe* report provides detailed data and examples of early childhood education and care policies across 37 European countries. It aims to build accessible, inclusive and high-quality early childhood education and care systems, covering access, governance, funding, staffing and curricula.

Transforming Digital Education

Insights from three years of the digital education accelerator

The digital education accelerator supported 21 solutions over three years, providing guidance, mentorship and testing. It fostered innovation, refined solutions and scaled up impact while using tailored mentoring and iterative development. The programme's flexible approach and structured mentoring helped teams tackle challenges, with insights gained contributing to the future of technology-driven learning.

Impacts of enhanced learning rates for clean energy technologies on global energy system scenarios

Energy system modelling for clean energy technology scenarios

This study examines the impact of clean energy technologies on the global energy system and economy, considering eight technology groups and two policy scenarios. Enhanced learning leads to a significant reduction in carbon dioxide emissions, lower investment needs and energy costs and more favourable socioeconomic outcomes.

Framing Summer Energy Poverty

Insights and recommendations for a resilient future

Summer energy poverty is a growing issue in Europe due to climate change. Heatwaves pose public health, economic and social challenges, especially for vulnerable groups. Data reveal that 19 % of EU households struggle to stay cool in summer, and 48 000 deaths are attributed to heatwaves annually.

Global Energy and Climate Outlook 2024

Updating NDCs and closing the ambition gap – Indicators for 1.5 °C alignment

The 10th edition of the *Global Energy and Climate Outlook* finds the world is not on track to meet climate targets, with a predicted 2.6 °C warming by 2100. To achieve the 1.5 °C warming limit, four key strategies are needed: using clean electricity, implementing electrification, decarbonising hard-to-abate sectors and scaling up negative emissions.

How to Turn NIMBY into PIMBY?

Key challenges and lessons learned in overcoming reluctance and promoting public acceptance of the energy transition locally

This report analyses public opposition to renewable energy sources, identifying barriers to acceptance and proposing methods to resolve opposition with the aim of turning 'not in my backyard' into 'please in my backyard', where residents recognise benefits and want involvement. The report is one of the deliverables prepared as part of the secretariat technical assistance to regions in transition programme, focusing on the Świdnica energy cluster.

Delivering the EU Green Deal

Progress towards targets

This report offers an in-depth evaluation of the progress of the European Green Deal, the EU's ambitious plan for climate neutrality by 2050. Analysing 154 targets from 44 policy documents produced between 2019 and 2024 across sectors like climate, energy and biodiversity, it highlights significant achievements but also underscores the need for faster progress. With binding policies expected to yield results soon, this report guides future EU strategies for a sustainable, climate-neutral Europe by 2050.

Preventing Waste in Europe

Progress and challenges, with a focus on food waste

The circular economy relies on waste prevention to combat climate change, biodiversity loss and pollution. The Waste Framework Directive prioritises waste prevention, mandating EU Member States to implement programmes promoting sustainable consumption and reducing harmful substances. The European Environment Agency evaluates progress in biennial reports, assessing policy implementation and waste trends and decoupling economic growth from waste generation, with a focus on food waste and best practices to achieve a circular economy.

2025 Report on Gender Equality in the EU

The EU made significant strides in gender equality in 2024, adopting directives to combat violence against women and domestic violence. A survey published in November 2024 revealed that one in three women had experienced physical or sexual violence and one in five had faced domestic violence. The EU plans to adopt a roadmap for women's rights in 2025, setting key principles for gender equality and framing work on a new strategy post 2025, aiming for long-term full gender equality.

Future-oriented Occupations in the EU

Main features, employment conditions, and job strain

The digital, green and demographic transitions are changing the way we work, affecting job content, skills and employment conditions. This analysis examines job-holder profiles, employment conditions and job quality in occupations relevant to these transitions, including those exposed to the impact of artificial intelligence.

Human Medicines in 2024

The European Medicines Agency recommended 114 medicines for market authorisation in 2024, including 46 with new active substances. Notable approvals include treatments for early Alzheimer's disease and allergic reactions, and new vaccines for chikungunya virus and respiratory syncytial virus. Cancer and biosimilar products were also prominent, increasing access to life-changing medicines.

Mental Health in the Construction Sector

Preventing and managing psychosocial risks in the workplace

In 2023, the EU called for a healthy workplaces initiative on psychosocial risks and mental health at work, focusing on sectors like construction. This report examines work-related psychosocial risks in construction, their impact on mental health and how organisations can prevent risks to improve workers' well-being.

Undeclared Care Work in the EU

Policy approaches to a complex socioeconomic challenge

In the EU, an estimated 6.8 million workers, mostly women and migrants, provide undeclared care or household services, facing poor working conditions and exploitation. This report examines undeclared care work, its characteristics and its challenges, highlighting the need for a comprehensive policy framework to address enforcement and structural barriers and ensure good working conditions and social protection for care workers, 2.1 million of them in the care sector alone.

Artificial Intelligence in Science

Promises or perils for creativity?

This paper examines the impact of artificial intelligence (AI) on scientific creativity across 80 fields from 2000 to 2022. AI adoption surged in the 2010s, with China leading in AI-driven research, outpacing the United States and the EU. AI enhances scientific creativity, but effects vary by field: most fields benefit, some see few to no improvements and a few experience negative impacts. The study found that AI's influence is moderated by the structural organisation of knowledge within fields, contributing to discussions on AI's role in science and policy initiatives.

Biometric Vulnerabilities

Ensuring future law enforcement preparedness

Biometric recognition systems have vulnerabilities that can be exploited by criminals. Law enforcement must understand these weaknesses to address rising crime facilitated by biometric presentation attacks. This report focuses on presentation attacks that impersonate users or evade recognition, aiming to provide a comprehensive picture of biometric systems' vulnerabilities and raise awareness among law enforcement, enabling them to update their systems and investigate breaches effectively.

Using Artificial Intelligence for Investing

What you should consider

The public's use of artificial-intelligence-powered tools for financial investing is growing. Online artificial intelligence tools provide investment suggestions based on public knowledge, offering valuable support but also posing risks. Despite the tools' innovative potential, inaccurate or misleading advice can lead to poor decisions and significant financial losses.

Trade • Competition

Europe's policy options in the face of Trump's global economic reordering

This paper analyses four scenarios of a second Trump administration's economic policy impact on Europe, from moderate tariffs to a full trade war. It assesses trade scenarios and outlines policy shocks, highlighting challenges for the European Central Bank, including trade disruptions and financial instability. It also offers policy recommendations to navigate these uncertainties ahead of the monetary dialogue with the President of the European Central Bank.

Trade aspects of the strategic dialogue on the future of EU agriculture and the impact of trade on the competitiveness and sustainability of European agriculture

This paper examines EU agriculture's trade aspects, highlighting trade as both a challenge and an opportunity. It identifies sectors benefiting from trade, such as cereals, and vulnerable sectors, such as beef. The paper discusses regulatory issues and recommends supporting farmers, strengthening border checks and promoting EU standards to improve resilience and sustainability, thus ensuring fair competition and reducing import dependency.

Information about the European Union

Getting in touch with the EU

In person

All over the European Union there are hundreds of Europe Direct centres. You can find the address of the centre nearest you online (european-union.europa.eu/contact-eu/meet-us_en).

On the phone or in writing

Europe Direct is a service that answers your questions about the European Union. You can contact this service:

— by freephone: 00 800 6 7 8 9 10 11 (certain operators may charge for these calls),

— at the following standard number: +32 22999696,

— via the following form: european-union.europa.eu/contact-eu/write-us_en.

Finding information about the EU

Online

Information about the European Union in all the official languages of the EU is available on the Europa website (europa.eu).

EU publications

You can view or order EU publications at op.europa.eu/en/publications. Multiple copies of free publications can be obtained by contacting Europe Direct or your local documentation centre (european-union.europa.eu/contact-eu/meet-us_en).

EU law and related documents

For access to legal information from the EU, including all EU law since 1951 in all the official language versions, go to EUR-Lex (eur-lex.europa.eu).

Open data from the EU

The portal data.europa.eu provides access to open datasets from the EU institutions, bodies and agencies. These can be downloaded and reused for free, for both commercial and non-commercial purposes. The portal also provides access to a wealth of datasets from European countries.

Online services provided by the Publications Office of the European Union

The portal of the Publications Office of the European Union (**op.europa.eu**)
Your gateway to a wealth of EU information

EUR-Lex (**eur-lex.europa.eu**)
