TECHNICAL NOTE

Survey requested by European Commission, Directorate-General for Education, Youth, Sport and Culture and coordinated by the Directorate-General for Communication

Fieldwork conducted by Ipsos European Public Affairs

Methodology

- Fieldwork: between 7 and 14 May 2025
- Target population: EU citizens, 15 years and over
- Coverage: EU27
- The survey was conducted via computer-assisted web interviewing (CAWI), using Ipsos online panels and their partner network. A share of respondents in a number of countries was recruited via social media networks.
- Total number of interviews: 25 781
- Sample size per country: ≈500 in LU, CY, MT; ≈1 000 in all other countries

Presentation of survey data

- Survey data are weighted to marginal age by gender, employment status and regional population distributions using *rim* weighting. The EU27 averages are weighted according to the size of the 15+ population of each country.
- Percentages exceed 100% if the question allowed respondents to select multiple responses.

Q1_1 And to what extent do you agree or disagree with the following statements?
Digital skills are essential for learning and education

	Strongly agree	Somewhat agree	Somewhat disagree	Strongly disagree	Don't know
EU27	37	48	10	3	2
BE	31	48	13	5	3

Q6 What is your position on the use of Artificial Intelligence (AI) in education?

	AI does not belong in the classroom	AI can benefit and bring risks to teaching and learning. The education community should assess and explore both	AI can improve teaching and learning. The education community should not be afraid to experiment with it	Don't know

Q7 In your view, what is necessary to ensure that AI (including generative AI) is used in education appropriately?
[MULTIPLE ANSWERS]

	Schools and universities should have clear guidance on how and when to use AI	Teachers should be given support to know how and when to use AI tools	AI tools used in the classroom should be developed specifically for educational purposes	Schools should help young people to understand and use AI	There should be common EU rules on how to use AI in education	Other	None	Don't know
